

Vienna, December 2019

Dear clients!

As is traditional at the end of the year, we are sending you our brochure with tax news. Unfortunately, the planned major tax reform has become victim of political events in Austria, but some parts of the planned reform have been implemented.

Our office has yet again seen reasonable growth, which has led to an increase in the headcount. Astrid Schiefer strengthened our secretariat in June and Julia Bauer joined the accounting department in November where she has been involved on balance sheet accounting.

The digitisation process is gaining momentum in our office and this year we again invested in new information technology. Speaking about IT, I would like to draw your attention to the BMD Com platform, which will significantly simplify communication between you and our office. As for information technology, new laws have entered into force bringing in particular the obligation for legal entities to submit documents electronically. For more information, see page 10 in the attached brochure.

This year again I would like to take this opportunity to thank all our staff for their commitment, engagement and readiness to continue to learn.

I would also like to thank you, our clients, as we have been working for some of you for decades. Long-term and stable business relations are not to be taken for granted in today's hectic times, so I am pleased to see them in our company.

We wish you a Merry Christmas, calm days full of peace as well as contemplation, and good luck, success and happiness in 2020.

Yours truly,

Mag. Georg Stöger

and the entire Stöger & Partner team
