

Viena, December 2018

## Dear clients!

*As usually at the end of the year, we are contacting you to provide you with a brief overview of the past year and our outlook for the new year.*

*Our profession has been undergoing significant changes at these times. Especially in accounting, it is becoming more and more automated.*

*Our portfolio of our own electronic solutions offers a variety of possibilities with an ever-increasing number of clients appreciating them. Besides paperless bookkeeping, automatic posting of bank statements and electronic data exchange, we offer additional services such as the preparation of reminders, payment orders and data for Internet banking as well as compiling and sending e-invoices to the corresponding federal authority – something we have been doing for a large part of our clients.*

*With the new BMD Com 2.0 programme, you will have very simple online access to the electronic exchange of your accounting documents in 2019. Thanks to this, you will have access to your company's current data at any time, you will be able to view VAT, a list of balances and a list of accounts. Ask us for a personal meeting to learn more about these benefits.*

*This year was full of events for us. Except of normal tax innovations, it was GDPR that kept us busy this year followed by the recent duty to report beneficial owners.*

*This year again you will find a brochure in the attachment featuring tax news that might be relevant to you.*

*We would like to thank all our employees for their work engagement and willingness to constantly learn.*

*But above all else, we would like to express our gratitude to you, our clients.*

*We have been taking care of some of you since more than two decades.*

*On behalf of our whole team, I wish you a merry and blessed Christmas holiday and a successful year in 2019.*

*Yours sincerely*

*Mag. Georg Stöger*
