Real-time access to accounting data - securely and at any time

Convenient and secure data access

We do the accounting, you get the information you need. With **bmd.com**, you can access your accounting data in real time at any time.

Most of our clients already use paperless accounting in BMD software. Now you can take advantage of even more benefits with **bmd.com**. You can view your accounting records, retrieve the data you need, and review and approve documents from anywhere, anytime.

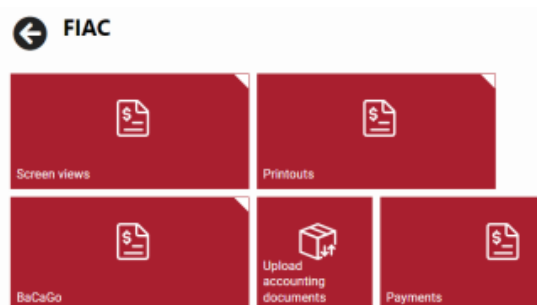

We will introduce you to some new features of BMD. We'll make sure all the data you need is exactly where it needs to be, so you can focus on what's important to your business and save time.

Always up-to-date information - whenever you need it

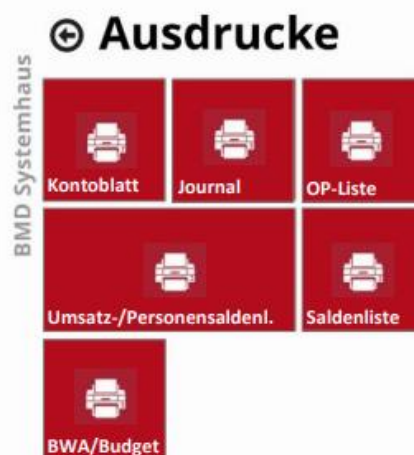

You don't have to worry about data entry or document processing. That's our job. You can view your company's financial results anytime, anywhere - just log in from your computer or smartphone via the web portal.

You can get an instant overview of turnover, profit, receivables and payables or click through to specific items such as invoices, statements of account and contracts. If you need data in PDF or Excel for further work, you can do it in a few clicks.

Convenient decision-making with accurate data at a click

Easy access to reports on income and expenditure, sales, outstanding receivables and payables will provide you with an important basis for decision-making. Whether you need comparisons with previous periods or a detailed breakdown of expenses, the reports can be tailored to your needs.

Easy management of invoices and payments

Your employees no longer have to enter invoices into other systems to get paid. A multi-step approval process can be set up to manage and significantly speed up the entire process. Approved invoices can be passed directly to your bank for

payment after posting. Reminders and their sending can be linked directly to the accounts receivable management module and managed by you via bmd.com.

Are you interested in this brief overview and want to know how access to accounting via bmd.com can save you and your colleagues time and work?

**We invite you to a short online presentation that will take place
22 October 2024 from 10:00 to 11:00 a.m.
and will be conducted in German.**

If you are interested in a presentation in Czech or English, please contact us.
